

Students,

I am requesting you do a little work prior to the day of class. These three questions/assignments will get our day started off on the right direction.

I am sure you all may have heard about the C's of credit.

Assignment 1: How Many C's of credit are there?

Assignment 2: List and define the C's of credit.

Assignment 3: Which is the most important and why?

See you in class!

LarryB
